

Open Spaces walkround 1700 on 26 September 2018

Cllrs Hill and Levermore walked around the KGA recreation ground and Community Orchard with the following points noted;

- Overall the site looked good, well maintained and was well used.
- The inside edges of the BMX track needed strimming to match the excellent work done around the outside bank.
- There were some holes in the dirt where the feet go on the bench by the BMX track start that needed filled and maintained.
- The long grass (hay) in the wild flower part of the Community Orchard needed cutting and taking away (sooner rather than later)
- The football pitch in the sports area needed mowing.
- Caroline to ensure we know what Chris Green has planned for irises/bulbs/bracken etc.
